

SELF-ASSESSMENT GUIDE

Qualification:	ANIMAL HEALTH CARE AND MANAGEMENT NC III	
Unit of competency:	RESTRAIN AND HANDLE ANIMAL	
Instruction: <ul style="list-style-type: none"> • Read each of the questions in the left-hand column of the chart. • Place a check in the appropriate box opposite each question to indicate your answers. 		
Can I?	YES	NO
• Identify and differentiate the stage of production of the animal*		
• Identify different restraining techniques for specific restraining purposes*		
• Select and apply suitable restraining technique*		
• Handle animal with minimal stress		
• Prepare the necessary tools and equipment and supplies and materials for specific restraining technique		
• Prevent harm and undue risks to own self and restrained animals*		
• Apply intended procedure to the restrained animal*		
• Select, use and maintain Personal Protective Equipment (PPE)		
• Operate equipment safely		
• Clean tools and equipment in accordance with manufacturer's specifications		
• Communicate effectively with superior and co-workers		
• Identify the different restraining techniques*		
• Identify occupational health and safety (OHS) guidelines and procedures		
• Identify the methods of cultivating a range of soil types		
• Identify environmental issues of cultivating soil for planting		
Candidate's name:	Date:	

SELF-ASSESSMENT GUIDE

Qualification:	ANIMAL HEALTH CARE AND MANAGEMENT NC III	
Unit of competency:	APPLY BIO-SECURITY MEASURES	
Instruction: <ul style="list-style-type: none"> • Read each of the questions in the left-hand column of the chart. • Place a check in the appropriate box opposite each question to indicate your answers. 		
Can I?	YES	NO
• Identify bio-security threats and hazards*		
• Apply disease prevention practices*		
• Apply preventive disease transmission practices*		
• Maintain records and provides feedback report*		
• Select, use and maintain Personal Protective Equipment (PPE)		
• Prepare necessary supplies and materials		
• Apply hygiene and sanitation practices		
• Follow medication and vaccination programs		
• Use tools and equipment safely		
• Complete records and documentation as per organizational requirements*		
• Communicate effectively with superior and co-workers		
• Identify the methods of applying bio-security measures*		
• Identify occupational health and safety (OHS) guidelines, procedures and principles		
Candidate's name:	Date:	

SELF-ASSESSMENT GUIDE

Qualification:	ANIMAL HEALTH CARE AND MANAGEMENT NC III	
Unit of competency:	HANDLE AND STORE DRUGS AND BIOLOGICS	
Instruction: <ul style="list-style-type: none"> • Read each of the questions in the left-hand column of the chart. • Place a check in the appropriate box opposite each question to indicate your answers. 		
Can I?	YES	NO
• Prepares drugs and biologics for transport*		
• Disposes used drug bottles and materials*		
• Applies and monitors proper storage temperature*		
• Labels and seals leftover/unused drugs and biologics*		
• Stores drugs and biologics supply		
• Reports and disposes expired and damaged drugs and biologics		
• Maintains records and provides feedback*		
• Transports drugs and biologics using appropriate container		
• Performs basic standards in handling drugs and biologics		
• Communicates effectively with superior and co-workers		
• Identify the methods of handling and storing drugs and biologics*		
• Identify occupational health and safety (OHS) guidelines, procedures and principles		
Candidate's name:	Date:	

SELF-ASSESSMENT GUIDE

Qualification:	ANIMAL HEALTH CARE AND MANAGEMENT NC III	
Unit of competency:	ADMINISTER DRUGS AND BIOLOGICS	
Instruction: <ul style="list-style-type: none"> • Read each of the questions in the left-hand column of the chart. • Place a check in the appropriate box opposite each question to indicate your answers. 		
Can I?	YES	NO
• Prepare supplies, materials, tools and equipment for administration of drugs and biologics*		
• Prepare and restrain animal for administration of drugs and biologics*		
• Administer drugs and biologics*		
• Select, uses and maintains Personal Protective Equipment (PPE)		
• Check drugs and biologics before application		
• Dispose used supplies and materials		
• Use tools and equipment safely		
• Clean tools and equipment in accordance with manufacturer's specifications		
• Monitor and record response to drugs and biologics*		
• Complete records and documentation as per organizational requirements*		
• Communicate effectively with superior and co-workers		
• Identify the methods of administering drugs and biologics*		
• Identify occupational health and safety (OHS) guidelines, procedures and principles		
Candidate's name:	Date:	

SELF-ASSESSMENT GUIDE

Qualification:	ANIMAL HEALTH CARE AND MANAGEMENT NC III	
Unit of competency:	COLLECT AND HANDLE SPECIMEN	
Instruction: <ul style="list-style-type: none"> • Read each of the questions in the left-hand column of the chart. • Place a check in the appropriate box opposite each question to indicate your answers. 		
Can I?	YES	NO
• Prepares supplies, materials, tools and equipment in preparation for collection of specimen*		
• Prepares and restrains animal for collection of specimen*		
• Collects specimen*		
• Labels collected specimen properly*		
• Uses appropriate container for the collected specimen*		
• Applies and monitors required temperature for collected specimen*		
• Properly handles and transports specimen to the diagnostic laboratory*		
• Uses tools and equipment safely		
• Cleans tools and equipment in accordance with manufacturer's specifications		
• Completes records and documentation as per organizational requirements		
• Communicates effectively with superior and co-workers		
• Identify the procedures in collecting specimen*		
• Identify occupational health and safety (OHS) guidelines, procedures and principles
