SELF ASSESSMENT GUIDE

Qualification:	ANIMAL PRODUCTION (Swine) NC II	
Units of Competency Covered:	Handle breeders	
Instruction:		
<ul style="list-style-type: none"> • Read each of the questions in the left-hand column of the chart. • Place a check in the appropriate box opposite each question to indicate your answer. 		
Can I?	YES	NO
• Isolate newly arrived stocks in quarantine pens and observe for a period prescribed by veterinary.		
• Give standard vaccines and medication for animals.		
• Acclimatize animals through vaccination depending in areas of the disease outbreak.*		
• Select suitable breed based on industry standards and choice of enterprise.*		
• Select female stock based on industry standards and choice of enterprise.		
• Select male stock based on industry standards, breeding objective and choice of enterprise.		
• Perform boar semen evaluation based on industry standards.		
• Monitor signs of heat based on standards protocol.*		
• Perform heat detection techniques following established protocol.*		
• Breed sows/gilts using standard breeding procedures.*		
• Select breeding system based on choice of enterprise.		
• Train boar to mount a female or a dummy sow.		

• Prescribe vaccines and medications given to boar.		
• Determine ideal weight and age according to industry standards.		
• Prepare and submit report on work outputs and updates to concerned person or authority according to industry practices.		
• Observe optimum boar to sow ratio following standard monitoring scheme.		
• Monitor signs of pregnancy according to standards protocol.*		
• Perform pregnancy diagnosis according to standard procedures.*		
• Perform periodic activities following work plan and breeding schedules.*		
• Feed stocks based on industry standards and production cycle.		
• Prepare production plan based on choice of enterprise.		
• Select non-performing breeders for culling based on industry standards.		
• Monitor changes in animal behavior following standard procedures and GAHP.		
• Update stock inventory according to established farm recording system.		
• Monitor and record breeding schedule following work plan.		
• Record and report production performance of breeders according to enterprise protocol.*		
I agree to undertake assessment in the knowledge that information gathered will only be used for professional development purposes and can only be accessed by concerned assessment personnel and my manager/supervisor.

SELF ASSESSMENT GUIDE

Qualification:	ANIMAL PRODUCTION (Swine) NC II		
Units of Competency Covered:	Handle farrowing sows and sucklings		
Instruction:			
<ul style="list-style-type: none"> • Read each of the questions in the left-hand column of the chart. • Place a check in the appropriate box opposite each question to indicate your answer. 			
Can I?	YES	NO	
• Clean and disinfect farrowing stalls or pens following standard hygienic procedures.			
• Conduct bathing of sows following Good Animal Husbandry Practices (GAHP).*			
• Transfer to farrowing stalls or pens pregnant sows and gilts according to Animal Welfare Act.*			
• Determine feed intake on farm protocols.			
• Monitor signs of approaching farrowing.*			
• Prepare farrowing materials and supplies based on work requirements.*			
• Wear appropriate personal protective equipment (PPE) following Occupational Safety and Health Standard (OSHS).			
• Monitor farrowing problems following enterprise protocol.*			
• Adjust feed intake based on nutrient requirements of animals.			
• Assist sow and gilt manually when deemed necessary.			
• Perform newborn piglet activities according to GAHP.*			
• Dispose placenta and dead piglets properly according to farm protocol and DENR regulations.			

<ul style="list-style-type: none"> • Provide proper temperature/micro-climate based on the minimum requirements for the welfare of pigs and the code of Good Animal Husbandry Practices (GAHP). 		
<ul style="list-style-type: none"> • Ensure colostrums and milk intake based from GAHP. 		
<ul style="list-style-type: none"> • Inject iron preparations based on industry standards and manufacturer's specification. 		
<ul style="list-style-type: none"> • Perform castration when needed based on the minimum requirements for the welfare of pigs and the code of Good Animal Husbandry Practices (GAHP). 		
<ul style="list-style-type: none"> • Feed piglets based on farm protocols. 		
<ul style="list-style-type: none"> • Wean piglets based on industry standards. 		
<ul style="list-style-type: none"> • Give liquid energizers to underweight sucklings immediately after birth. 		
<ul style="list-style-type: none"> • Monitor changes in piglet behavior following enterprise protocol.* 		
<ul style="list-style-type: none"> • Monitor changes in fecal, odor, color and consistency of piglets according to industry standard procedures.* 		
<ul style="list-style-type: none"> • Monitor uniformity of litter based on enterprise requirements. 		
<ul style="list-style-type: none"> • Monitor sow discharges following instructions of veterinarian. 		
<ul style="list-style-type: none"> • Implement vaccination programs based on veterinary recommendation. 		
<ul style="list-style-type: none"> • Update farrowing card following enterprise procedures. 		
<ul style="list-style-type: none"> • Monitor farrowing schedules with reference to work plan. 		
<ul style="list-style-type: none"> • Record and report production performance to immediate authority.* 		
<ul style="list-style-type: none"> • Record and report technical performance following instructions of authority. 		

I agree to undertake assessment in the knowledge that information gathered will only be used for professional development purposes and can only be accessed by concerned assessment personnel and my manager/supervisor.

SELF ASSESSMENT GUIDE

Qualification:	ANIMAL PRODUCTION (Swine) NC II		
Units of Competency Covered:	Produce finishers		
Instruction:			
<ul style="list-style-type: none"> • Read each of the questions in the left-hand column of the chart. • Place a check in the appropriate box opposite each question to indicate your answer. 			
Can I?	YES	NO	
• Select suitable starters for finishing based on preference of clients.			
• Clean and disinfect finishers building.			
• Adjust and supply materials and equipment according to work requirements.*			
• Group starters based on industry standards farm specifications.			
• Transfer starters based on the minimum standards on the welfare of pigs and code of Good Animal Husbandry Practices (GAHP).			
• Clean pen regularly following hygienic procedures.			
• Monitor and provide proper temperature based on the minimum standards on the welfare of pigs and code of Good Animal Husbandry Practices (GAHP).			
• Check and adjust height of drinkers to ensure proper functioning based on the minimum standards on the welfare of pigs and code of Good Animal Husbandry Practices (GAHP).			
• Provide enough floor space based on the minimum standards on the welfare of pigs and code of Good Animal Husbandry Practices (GAHP).			
• Isolate weak animals based on farm protocols.			
• Check and adjust feeders to ensure proper functioning.			

• Feed animals according to a standard feeding system.*		
• Adjust and shift feed ration based on farm protocols.		
• Withdraw medicated feeds according to veterinarian instructions.		
• Monitor changes in animal behavior following Animal Welfare Act and GAHP.*		
• Monitor changes in posture of animal following Animal Welfare Act and GAHP.*		
• Monitor changes in respiration of animal following Animal Welfare Act and GAHP.*		
• Monitor changes in skin color following Animal Welfare Act and GAHP.*		
• Monitor uniformity of stocks following enterprise protocol.		
• Implement vaccination and medication programs based on veterinarian instructions.		
• Perform weight estimation using standard protocols.		
• Prepare and reserve marketable animals following marketing requirements and procedures.		
• Prepare loading facility and ramp with reference to Animal Welfare Act.		
• Move animals to loading facility following Animal Welfare Act.		
• Clean and disinfect transportation vehicle in line with GAHP.		
• Update finishing records following enterprise protocol.		
• Monitor production parameters for finishers with reference to production requirements.*		

I agree to undertake assessment in the knowledge that information gathered will only be used for professional development purposes and can only be accessed by concerned assessment personnel and my manager/supervisor.
