OVERSEAS DEMAND: JANUARY TO MAY 2010

The Philippine Overseas and Employment Administration (POEA) for the past years has been monitoring and releasing data on Filipinos in-demand overseas in the form of Job Orders. These Job Orders are requests from employers abroad for Filipino professionals and skilled workers. These are considered active unless cancelled by the employer or recruitment agency

For the period January 1, 2010 to May 31, 2010, the total job order was 249,721. Thirty-three percent (33%) or 82,311 were filled-up or processed leaving a balance of 167,410 (67%) unfilled job orders. Of the occupations/skills that remained unfilled, the Transport Equipment, Production and Related Workers posted the highest at 63,646 (38%) followed by Service workers at 57,068 (34%). According to POEA skills in these sectors are difficult to fill in due to lack of qualified skilled workers at the time being (Table 1).

The distribution of overseas job shows that Service Workers occupied the biggest overseas requirements with 94,645 (38%) followed closely by the Transport Equipment, Production and Related Workers with 93,259 (37%). Agriculture, Animal Husbandry and Forestry Workers registered the least in-demand occupation needed overseas at 676 or 0% (Table 1).

Of the 249,721 job order overseas, 157,716 or 63% are skilled workers. The remaining balance of 92,005 or 37% are professional and related occupations. The Health, Social and Other Community Development Services workers constitute 73,198 (46%) of the total skilled jobs. This is followed by Construction Sector contributing 42,229 (27%) overseas jobs. The POEA Administrator said that in the Middle East a rise in job orders in the construction industries was noted because of the mega cities that are being built. Footwear and Leathergoods Sectors comprised the least in-demand occupations needed overseas at 0% or 8 jobs (Table 2).
