SELF- ASSESSMENT GUIDE

Qualification :	LANDCAPE INSTALLATION AND MAINTENANCE NC II	
Project Based Assessment 2:	MAINTAIN LANDSCAPE	
Units of Competency Covered:	<ul style="list-style-type: none"> • TRIM AND PRUNE LANDSCAPE PLANTS • PERFORM WEEDING AND CULTIVATION • APPLY FERTILIZER (NUTRITION) • WATER PLANTS • CONTROL AND PREVENT PLANT PEST AND DISEASES • PROVIDE PLANT SUPPORT • PERFORM LAWN GRASS MAINTENANCE • PERFORM RE-PLANTING ACTIVITIES • COLLECT, DISPOSE AND UTILIZE ORGANIC WASTES 	
Instruction: <ul style="list-style-type: none"> • Read each of the questions in the left-hand column of the chart. • Place a tick in the appropriate box opposite each question to indicate your answer. 		
Can I?	YES	NO
• Identify trimming and pruning requirements *		
• Perform trimming and pruning of landscape plants*		
• Apply sterilizing agent / compounds*		
• Perform post-trimming and pruning operations*		
• Identify weeding and cultivation requirements*		
• Conduct weeding and removal of volunteer plants species*		
• Determine and cultivates compacted soil*		
• Conduct post weeding and soil cultivation operations*		
• Identify fertilizer application requirements*		
• Perform fertilizer application activities*		
• Perform post-fertilizer application activities*		
• Identify requirements for watering / irrigating plants*		
• Conduct watering /irrigation of plants as per instruction*		

• Perform post-watering / irrigation activities*		
• Identify requirements for the prevention and control of pests and diseases*		
• Apply pest and disease prevention and control measures*		
• Perform post-pest and disease prevention and control operations*		
• Identify requirements for installation of plant support*		
• Install plant support*		
• Inspect, maintain, replace and remove / dismantle plant support*		
• Identify requirements for mowing / maintaining lawn grasses*		
• Control pests, diseases and weeds of lawn grasses through chemical use or manually *		
• Perform irrigation and fertilization of lawn grass*		
• Identify requirements for the collection, *		
• Gather and dispose plant derived organic wastes that are not intended for processing and utilization*		
• Convert large organic waste materials into chips*		
• Mix chips organic wastes with small-sized organic wastes materials and uses them to produce compost*		
• Conduct post operation activities*		
• Identify requirements for the removal and replacement of landscape plants*		
• Perform removal and disposal of the subject landscape plants*		
• Prepare land/ soil of the spot for replanting*		
• Select right species and size of the landscape plant for replanting*		
• Complete replanting operations which includes basal fertilizer application, support staking, mulching and watering (if necessary) *		
• Perform post-removal and replanting activities*		
• Use appropriate tools, equipment and PPE*		

• Clean, maintain and store tools and equipment*		
• Clean and maintain working areas*		
• Observe OHS practices*		
• Communicate effectively with supervisor, contractors, consultants and work team members*
