

SUPPLEMENTAL/BID BULLETIN

BID BULLETIN NO. 1

7 July 2025

Name of Project: Supply, Delivery, Installation, Commissioning and Training of Various Equipment, Tools and Materials for the WorldSkills ASEAN Manila 2025

Bid Reference No.: TESDA-CO-2025-008

Approved Budget: P46,292,665.10

Pursuant to Section 22.5 of the Revised Implementing Rules and Regulations of Republic Act No. 9184, this Bid Bulletin No. 1 is being issued to further clarify the provisions in the Bidding Documents.

A. Inclusion of Certification Statement in Section VII. Technical Specifications

The certification statement is included in Section VII of the Bidding Documents, which forms part of the Technical Specification.

- Kindly refer to the revised Section VII. Technical Specifications of Annexes B1 to B31 for the inclusion of the said certification statement, which applies to Lots 1 to 31.

B. Rearrangement of Item Code for Lot 28 – Health and Safety Package

The rearranged item code for Lot 28 – Health and Safety Package is accurately reflected in the revised Section VII. Technical Specifications (see revised Annex B28)

C. On the amount of bid security

Lot No.	Title	Cash, Cashier's/ Manager's Check, Bank Draft/ Guarantee or Irrevocable Letter of Credit (2% of ABC)	Surety Bond callable upon demand issued by a surety or insurance company duly certified by the Insurance Commission (5% of ABC)
ORIGINAL			
30	Ingredients	₱5,544.72	₱13,861.81
31	IT Hardware and Software	₱45,697.24	₱114,243.11
AMENDED			
30	Ingredients	₱33,592.58	₱83,981.45
31	IT Hardware and Software	₱63,422.75	₱158,556.87

D. On the Delivery Schedule

The following conditions shall strictly apply:

1) Timely Delivery Requirement

The delivery schedule stipulated in the contract shall be strictly enforced. All deliveries must be completed within the prescribed period to allow sufficient time for installation, testing, and preparation prior to the scheduled event.

2) Liquidated Damages

Pursuant to Section 68 of the 2016 Revised Implementing Rules and Regulations (RIRR) of RA 9184, all contracts executed in accordance with the Act and this IRR shall contain a provision on liquidated damages which shall be payable by the contractor in case of breach thereof. For the procurement of Goods, Infrastructure Projects and Consulting Services, the amount of the liquidated damages shall be at least equal to one-tenth of one percent (0.001) of the cost of the unperformed portion for every day of delay. Once the cumulative amount of liquidated damages reaches ten percent (10%) of the amount of the contract, the Procuring Entity may rescind or terminate the contract, without prejudice to other courses of action and remedies available under the circumstances.

For the information and guidance of all concerned.

VIDAL D. VILLANUEVA III
Chairperson, BAC-A

Technical Specifications

34	Stop light bulb		4	Pcs			
35	Test cable with alligator clip (Jump start cable)		4	Set			
36	Thickness Gauge		2	Sets			
37	Turn Signal flasher relay		2	Pcs			
38	V Block Set		2	Pcs			
39	File		1	Unit			
40	Soldering iron		2	Units			

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B1.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B3.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

69	Saw Blade for Sliding Miter Saw		8	pcs.			
70	Pallet Truck		2	units			

71	Sliding table panel saw (tilting)		4	unit			
72	F Clamp		16	pcs.			
73	feeler gauge		8	pcs.			
74	Mobile clamp rack		8	units			
75	Vertical mortiser (machine)		2	units			
76	Wooden workbench		8	units			
77	Magnetic catches		16	pcs.			
78	Low angle jack plane		2	units			
79	Block plane		2	units			
80	Smoothing plane		2	units			
81	Shoulder plane		2	units			
82	Tape Measure		2	pcs.			
83	Tape Measure		2	pcs.			
84	Magnetic levels		2	pcs.			
85	Steel rule		2	units			
86	Try square		2	pcs.			
87	Combination square		2	pcs.			
88	Sliding T bevel		2	pcs.			
89	Wood Drill		2	sets			
90	Wood drill bit set		2	sets			
91	Router (with bits)		2	units			
92	Router (Trimmer)		2	units			
93	Router bits box set		2	sets			
94	Service Tool Box		2	units			
95	Torque screwdrivers		2	sets			
96	Chisel set		2	sets			
97	Hand saw		2	pcs.			
98	Hand scrapers		2	sets			
99	Sharpening set		2	sets			
100	Natural carpenter's sharpening stone		2	sets			

101	Japanese saw		2	pcs.			
102	wooden dowel		200	pcs			
103	Mallet		2	units			
104	Dust Collector		8	sets			

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B4.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B5.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B6.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

Lot 8 : Cyber Security Package

No.	Item	Agency Specifications	Qty	Unit	Statement of Compliance*	Make Brand / Model	Reference
1	Trunking to cover running cables	Kindly refer to the technical specifications attached as Annex 8.	13	meters			
2	Crimping tool		5	pcs			

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B8.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

133	Industrial socket Female		15	set			
134	DALI Ballast		30	set			
135	LED Dali Lamp and holder		30	set			
136	Wiring board		16	sets			

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B9.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B10.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B12.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

REVISED ANNEX B15

Lot No.	Lot Title	Item Code	Item	Agency Specifications	Test Procedure (Post Evaluation)	Test Procedure (Inspection and Acceptance)	Quantity	Unit	Warranty
15	Industrial Control Package	15-01	3 core wire 3G0.75	PVC Cable, 3 Core 0.75 mm2	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	150	meters	Standard warranty
		15-02	3 core wire 3G1.5	PVC Cable, 3Core 1.5 mm2	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	75	meters	Standard warranty
		15-03	4 core wire 4G0.75 Shielded	Shielded cable, 4Core, 0.5mm2	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	75	meters	Standard warranty
		15-04	4 core wire 4G1.5 Shielded	Shielded cable, 4Core, 1.5mm2	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	100	meters	Standard warranty
		15-05	4 core wire 4G2.5	PVC Cable, 5 Core 2.5 mm2	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	100	meters	Standard warranty
		15-06	5 core wire 5G0.75	PVC Cable, 5 Core 0.75 mm2	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	150	meters	Standard warranty
		15-07	7 core wire 7G0.75	PVC Cable, 7Core 0.75 mm2	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	75	meters	Standard warranty
		15-08	Cable Gland M16 x 1.5 with LOCKNUT	Plastic cable gland, M16 x 1.5 with locknut	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	160	Pc.	Standard warranty
		15-09	Cable Gland M20 x 1.5	Plastic cable gland, M20 x 1.5 with locknut	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	160	Pc.	Standard warranty
		15-10	Cable Gland M25 x 1.5	Plastic cable gland, M25 x 1.5 with locknut	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	4	Pc.	Standard warranty

* Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B16.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

REVISED ANNEX 16

Lot No.	Lot Title	Item Code	Item	Agency Specifications	Test Procedure (Post Evaluation)	Test Procedure (Inspection and Acceptance)	Quantity	Unit	Warranty
16	Industry 4.0 Package	16-01	Marking adhesive	marking/distancing adhesive - black/yellow - roll of 48 mm x 50 m	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	5	pcs	Standard warranty
		16-02	Compressor	Compressed air supply with Quick Connection Fitting of 6 mm (outer diameter) tubing	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	5	set	Standard warranty
		16-03	Digital Multimeter (5set)	Type: Basic digital multimeter (educational model) Functions: Measures AC/DC voltage, DC current, resistance Power Supply: 9V battery or USB-powered Display: LCD Typical Voltage Range: Up to 600V AC/DC	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	5	set	Standard warranty
		16-04	Ethernet switch (8 ports)	Complies with IEEE 802.3, IEEE 802.3u and IEEE 802.3ab standards 8 port 10/100/1000Mbps	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	set	Standard warranty
		16-05	Screwdriver 8440 RB	Sizes Included: T8, T9, T10, T15, T20, T25 Blade Lengths & Weights: T8: 60 mm blade, 3 mm diameter, 20 g T9: 60 mm blade, 3.5 mm diameter, 22 g T10: 70 mm blade, 3.5 mm diameter, 28 g T15: 80 mm blade, 4 mm diameter, 38 g T20: 100 mm blade, 5 mm diameter, 54 g T25: 120 mm blade, 6 mm diameter, 77 g	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	set	Standard warranty

REVISED ANNEX 16

Lot No.	Lot Title	Item Code	Item	Agency Specifications	Test Procedure (Post Evaluation)	Test Procedure (Inspection and Acceptance)	Quantity	Unit	Warranty
		16-06	Combination Pliers,	Tool Type: Combination Pliers (also called Lineman's Pliers) Length: Approximately 180 mm to 200 mm (7 to 8 inches) Material: High-carbon steel or chrome vanadium steel, hardened and tempered for strength Jaw Design: Flat gripping surface for holding and twisting Serrated gripping area for better grip on round objects Cutting edge near the pivot for wire cutting (soft and hard wire) Handle: Ergonomic, insulated rubber grips for comfort and electrical safety (up to 1000V) Finish: Polished or coated to resist corrosion Cutting Capacity: Cuts copper wire up to 3 mm diameter Use Case: Ideal for gripping, bending, twisting, and cutting wires and components during mechatronics assembly and maintenance	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	pc	Standard warranty
		16-07	Nose Side Cutting Pliers	Tool Type: Nose Side Cutting Pliers / Flush Cutter Length: Approx. 140 mm to 160 mm (5.5 to 6.3 inches) Material: Hardened high-carbon steel or chrome vanadium steel, tempered for durability Cutting Edge: Precision ground, flush cutting edges for clean wire trimming without damage	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	pc	Standard warranty

REVISED ANNEX 16

Lot No.	Lot Title	Item Code	Item	Agency Specifications	Test Procedure (Post Evaluation)	Test Procedure (Inspection and Acceptance)	Quantity	Unit	Warranty
				Handle: Ergonomic, insulated rubber grip for comfort and electrical safety (typically rated up to 1000V) Joint Type: Box joint or rivet joint for smooth operation and longevity Cutting Capacity: Soft copper wire up to 1.5 mm diameter Finish: Polished or black oxide coated for corrosion resistance Use Case: Perfect for trimming wires, cutting component leads, and working in tight spaces on mechatronics assemblies, PCB work, and sensor wiring Additional Features: Compact nose design for precision in confined spaces and delicate tasks					
		16-08	Retractable Blade Knife	Blade Type: Retractable, replaceable stainless steel blade Blade Length: Standard 18 mm snap-off blade, with multiple segments for extended use Handle Material: Durable plastic with ergonomic, non-slip rubber grip Blade Retraction: Multi-position slider with secure lock to adjust blade length safely Safety Features: Blade lock mechanism to prevent accidental blade exposure Usage: Ideal for cutting cables, insulation, tape, cardboard, and light materials in mechatronics assembly and maintenance	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	pc	Standard warranty

REVISED ANNEX 16

Lot No.	Lot Title	Item Code	Item	Agency Specifications	Test Procedure (Post Evaluation)	Test Procedure (Inspection and Acceptance)	Quantity	Unit	Warranty
				Size: Approx. 15 cm (6 inches) total length					
		16-09	Cable Outer Isolation Remover Tool	Tool Type: Cable outer insulation remover / wire stripper Material: High-grade stainless steel blades with hardened cutting edges Length: Approx. 15 cm (6 inches) Adjustable Cutting Depth: Yes, allows precise stripping without damaging inner conductors Handle: Ergonomic, non-slip rubberized grip for comfort and control Wire Size Range: Strips cable insulation from 0.5 mm ² to 6 mm ² (approx. 20 AWG to 10 AWG) Usage: Designed for removing outer insulation of multi-core cables, sensor cables, and wires used in mechatronics systems	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	pc	Standard warranty
		16-10	Diagonal Cutting Pliers,	Length: 150 mm (6 inches) Material: High-carbon steel, hardened and tempered blade Cutting Capacity: Soft copper wire up to 2.5 mm diameter Blade Type: Precision ground flush cutting edges Handle: Ergonomic non-slip rubber grip, insulated for safety (up to 1000V) Joint: Durable rivet joint for smooth and stable operation Finish: Polished steel with anti-corrosion coating Applications: Cutting wires, trimming	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	pc	Standard warranty

REVISED ANNEX 16

Lot No.	Lot Title	Item Code	Item	Agency Specifications	Test Procedure (Post Evaluation)	Test Procedure (Inspection and Acceptance)	Quantity	Unit	Warranty
				electronic component leads, cutting cable ties, and plastic trimming in mechatronics and electronics work Package Includes: 1 x Diagonal Cutter with protective handle cover					
		16-11	Screwdriver Set,	Flathead: 3 mm, 5 mm, 6 mm Phillips: PH1, PH2, PH3	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	pc	Standard warranty
		16-12	Allen Screwdriver	Number of Pieces: 9 pcs Sizes Included: 1.5 mm, 2 mm, 2.5 mm, 3 mm, 4 mm, 5 mm, 6 mm, 8 mm, 10 mm Material: Hardened chrome vanadium steel for long-lasting durability and wear resistance Finish: Black oxide coating for corrosion protection Design: L-shaped hex keys for strong torque and easy handling in tight spaces Handle: None (standard L-shape)	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	pc	Standard warranty
		16-13	Torx Screwdriver	T6, T7 , T8, T9, T10, T15, T20, 25	- Evaluation of brochures, data sheets, and product literatures.	-Actual equipment inspection; and/or -Functionality testing.	1	pc	Standard warranty

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

4	Plastic cable coupler (2.5 mm)		30	pcs			

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B18.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

52	Tool Trolley		11	pcs			
53	Cordless Drill		11	Set			

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B22.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B23.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

95	Diamond Tile Cutter		18	pcs			
96	Tile Trimmer Small		7	pcs			
97	Tile Trimmer Large		7	pcs			
98	Dust Collector		6	sets			

* Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid

under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B24.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

Lot 25 : Web Technologies Package

No.	Item	Agency Specifications	Qty	Unit	Statement of Compliance*	Make Brand / Model	Reference
1	Plastic cable coupler	Kindly refer to the technical specifications attached as Annex B25 .	500	pcs			
2	Crimping tool		2	pcs			

* Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B25.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

115	Fillet Weld Gage		2	sets			
116	Telescoping Inspection Mirrors		2	pcs			
117	Tape Measure		2	pcs			
118	Anti Spatter Spray		2	pcs.			
119	Gas regulator Dual (Argon)		11	pcs.			
120	Argon+CO2 gas Cylinder (80%/20%) Refill		33	cyl			
121	Argon gas Cylinder (100%) Refill		33	cyl			
122	Engineers Vice - with soft jaw		4	pcs			
123	Water Container		1	pc			
124	Ladder		1	pc			
125	Wooden pallets		6	pcs			
126	Steel Rule		1	pc			
127	Digital Vernier Caliper		1	pc			
128	Loupe magnifier with UV and LED light		2	pcs			
129	Whistle		1	pc			
130	Letter and Number Punches		2	sets			
131	X-ray viewer		1	pc			
132	Long Nose Plier		1	pc			
133	Steel Curved Jaw Locking Pliers		1	pc			
134	Tungsten grinders		2	sets			
135	Welding Gauge Weld Test Ulnar (Digital Fillet gauge Seam inspection Metric and Inch)		2	pcs			
136	Welding Gage		2	pcs			
137	V-WAC Gage Single Welding Gauge		2	pcs			

138	Industrial Fan		2	pcs			
139	Air compressor with accessories		1	pc			
140	Single open ended spanner		1	set			
141	Nylon Mallet Hammer		1	unit			
142	Argon Co2 Professional Gas Flow Meter Tester		1	pc.			
143	Steel Square		1	pc.			
144	Steel Bucket		1	pc.			
145	Taper Gauge		1	pc.			
146	Wooden Box		11	pcs			
147	Sink		1	pc			
148	Utility Knife		2	pcs.			
149	Wire brush wheels to suit grinder 4 inches		2	pcs			
150	Stationary Oven		1	Unit			
151	Wire Cup Brush		4	pcs.			
152	Portable Oven (quiver)		11	units			
153	Metal Chains		1	roll			

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B26.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B27.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B28.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B29.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

* Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B30.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.

** Bidders must state here either "Comply" or "Not Comply" against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of "Comply" or "Not Comply" must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer's un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidders statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.*

All tools, equipment, gadgets and electrically operated instruments should have Standard Manufacturers Manual and/or Datasheet/Specification Sheet/Brochure as indicated in Annex B31.

Instruction Manual is an instructional book or booklet that is supplied with almost all technologically advanced products such as electrical products.

Datasheet/Specification Sheet/Brochure is a document that summarizes the performance and other characteristics of a product, machine, component that comes along with the product from its release from the manufacturer.

I hereby certify that the statement of compliance to the foregoing technical specifications are true and correct, otherwise, if found to be false either during bid evaluation or post-qualification, the same shall give rise to automatic disqualification of our bid.
