Webliography

The Webliography is an electronic bibliographic listing of topics related to the qualification titles of a particular TVET priority sector, with pre-searched *URLs* (uniform resource locators) and descriptions (abstracts).

The pre-searched *URLs* provide contents in reference to the title of promulgated Training Regulations (TR). By clicking the weblinks (underlined URLs in blue text), your internet browser will direct you to the website/webpage where you can find the topic related to the title you selected. The Webliography is a useful tool for trainers who are designing and developing competency-based curriculum and learning materials.

Technical Education and Skills Development Authority

TESDA » Webliography » Garments Sector

Garments Sector

Scope:
Clothing technology involves the manufacturing, materials, and design innovations that have been developed and used. The timeline of clothing and textiles technology includes major changes in the manufacture and distribution of clothing.
